ANNUAL CATALOGUE

—OF—

New Orleans University,

1907-1908

THIRTY-FIFTH SESSION.

**PAYMENT DAYS.**

---

Incidental Fees and all other student bills are due and payable strictly in advance. This is the rule of the Institution and should be carefully observed. It is expected that all day students will be prepared to pay their incidental fees on dates not later than the following:

September 29, 1908.  
 October 28, 1908.  
 November 30, 1908.  
 December 29, 1908.  
 January 28, 1909.  
 February 28, 1909.  
 March 29, 1909.  
 April 29, 1909.

In order to secure further time for payment of fees, special arrangements must be made with the President. In case such arrangements are not made the student may be suspended. A month is understood to consist of thirty days.

---

**UNIVERSITY CALENDAR.****1908-1909.**

---

**FIRST FOUR MONTHS.**

---

Opens September 29, 1908.

Closes January 29, 1909.

Holidays:—December 25, 1908.

---

**SECOND FOUR MONTHS.**

---

Opens February 3, 1909.

Closes May 18, 1909.

---

**EXAMINATIONS:**

---

For Admission . . . . . Tuesday, September 29, 1908.

**NEW ORLEANS UNIVERSITY.**

---

---

**HISTORY AND GOVERNMENT.**

---

Twenty-nine years ago, under the leadership of Dr. J. C. Hartzell, now Bishop of Africa, the following persons were constituted a body politic under the name and title of New Orleans University viz: J. C. Hartzell, I. S. Leavitt, Cyrus Bussey, Emperor Williams, H. C. Dibble, John Baldwin, George Dardis, W. M. Daily, M. C. Cole, J. H. Ingram, C. W. Boothby, Pierre Landry, W. G. Brown, J. L. Barth. Of these but four are still on the Board of Trustees, Bishop Hartzell, Rev. Pierre Landry, Mr. C. W. Boothby and Rev. I. S. Leavitt, D. D. The rest have gone to their reward.

The Legislature hesitated to charter an institution entirely in prospective for the education of the colored youth. Judge White, later of the Supreme Court of the United States, was called on to define the province of a university. After his clear and comprehensive statement as to the requisites necessary to constitute a university of learning, it was confidently asserted that no such institution would ever be needed for the colored people of Louisiana. After prolonged debate the charter was granted and the University started on its career. At least half of its founders lived until they saw the unmistakable proof that their hopes of a coming University were soon to be realized.

**COLLEGE OF LIBERAL ARTS.**

In 1878 the first class was graduated from the College of Liberal Arts. Though the number completing this course has been small, among them can be found the names that are familiar to all who take any note of the progress of the race, while almost without exception all have reached positions of influence and great usefulness. Not one has been convicted of any crime that would cause a friend of the Institution to blush.

**NORMAL COLLEGE.**

In 1887 the first class was graduated from the professional teachers course. From a beginning that included but little practical scientific training in teaching, the curriculum has been enlarged until now it may well be doubted whether any similiar institution sends out better qualified or more faithful and conscientious teachers.

It is reason for great gratification that they are cordially received and highly commended in all parts of the State, and many of them are filling responsible positions in adjoining States.

**MEDICAL COLLEGE.**

In 1889 the Medical College was opened and each year has sent out a class of young men who rank high in their profession. Though the income has been small, through the generous favor and personal interest of leading physicians a Faculty has been secured whose exceptionally good work has given the College an excellent reputation. With a hospital, which has been open for six years, and for which a new building has been recently purchased, students will have the best advantages a great cosmopolitan city can afford.

**THEOLOGICAL DEPARTMENT.**

Classes in Biblical instruction have been sustained most of the time since 1890. It is hoped soon to do as good and thorough work in this department as is now done in the Medical College.

---

**UNIVERSITY FACULTY.**

---

JOHN WIER, A. M. D. D.,  
President,  
Philosophy.

A. D. BUSH, M. D.,  
Dean of Flint Medical College.

J. M. MATTHEWS, A. B.,  
Acting Principal Gilbert Industrial College.

MRS. MARY A. LAUBACH, A. B.,  
College Secretary.

ROSCOE E. LAUBACH, B. S.,  
Natural Sciences.

MANETTA D. WIER,  
English Literature.

J. W. THOMAS, A. B., M. D.,  
Professor of Practice of Medicine, Lecturer on Operative Surgery, Instructor  
in Diseases of Eye, Ear, Nose and Throat.  
Chief of Clinic.

W. H. HARRISON, A. M., M. S., M. D.,  
Professor of Materia Medica and Obstetrics and Lecturer on Diseases of the  
Mind and Nervous System.

ANNIE J. PARKER, A. M.,  
Latin and Greek.

DELBERT A. WHEELER, B. S.,  
Eighth Grade and Normal.

H. W. CUMMINGS, B. S.,  
Professor of Chemistry.  
Instructor in Physics, Physiology and Histology

H. E. CONNOR, B. S., M. D.,  
Lecturer of Genito-Urinary Diseases

BENJ. T. LELAND, A. B.  
Mathematics.

J. A. HARDIN, M. D.,  
Professor of Pathology.

PAUL K. SELLEW,  
Pathology and Bacteriology.

RIVERS FREDERICKS, M. D.,  
Lecturer on Physical Diagnosis.

A. E. P. ALBERT, M. D.,  
Lecturer on Dermatology

## UNIVERSITY FACULTY.

Continued.

LULU M. WILCOX,  
Domestic Art.

MRS. MARY E. HALL,  
Domestic Science.

EDNA M. CLARK,  
Piano.

| Thesis.....                      | Thesis           |

## NOTES ON COLLEGE COURSES.

The University offers full four years courses of collegiate studies which lead to the degree of A. B., or B. S. In order to complete successfully either of these courses thorough previous preparation and close application are necessary.

Academic degrees are conferred only upon resident students.

Standing and grades held by prospective students from other Institutions will be accepted in this Institution only when the President and faculty are satisfied that work equivalent to that required by the curriculum of this Institution has been done.

Boarding students in the College Departments are required to pay but eight dollars per month. This does not include cost of books, laundry and other personal expenses.

Special emphasis is placed upon daily class room work. No attempt is made to give manual training to boys, but all the time and strength at the student's disposal are devoted to literary and scientific study and recitation. Young women have excellent opportunities in this Institution to acquire, in addition to literary training, the household arts. Our chief aim is to train thoroughly the minds and hearts of students committed to our care.

---

## COLLEGE PREPARATORY COURSE.

---

### FIRST YEAR.

---

#### First Four Months.

|                                    |                           |

---

## ENGLISH HIGH SCHOOL COURSE.

---

The English High School Course of four years is the same as the first four years of the Normal Course, except that it omits Latin.

**NORMAL COLLEGE.**

The thoroughly equipped Normal graduate will have little difficulty in securing a good situation. Such assistance as in any case may be necessary to the securing of a school will be cheerfully given by the President.

The great need of the South to-day is competent teachers. The supply is not equal to the demand. We therefore urge our young people of ability and ambition to consider seriously the question of taking a Normal Course in this Institution.

Graduates of the Normal Department are exempt from examination before the State Board for teachers' certificates.

**NORMAL COURSE.**

**FIRST YEAR.**

**First Four Months.**

|                                     |                           |
|-------------------------------------|---------------------------|
| Algebra . . . . .                   | Algebra                   |
| Latin—First Lessons . . . . .       | Latin—First Lessons       |
| English—American Classics . . . . . | English—American Classics |
| Physical Geography . . . . .        | English Bible             |
| Cooking . . . . .                   | Sewing                    |

**Second Four Months.**

**SECOND YEAR.**

|                                            |                                  |
|--------------------------------------------|----------------------------------|
| Bookkeeping . . . . .                      | Bookkeeping                      |
| English Classics and Composition . . . . . | English Classics and Composition |
| English Bible . . . . .                    | English Bible                    |
| Botany . . . . .                           | Nature Study                     |
| General History . . . . .                  | General History                  |
| Sewing . . . . .                           | Cooking                          |

**THIRD YEAR.**

|                                   |                         |
|-----------------------------------|-------------------------|

| History of U. S. and Methods . . . . .    | History of Louisiana |
| Practice Teaching . . . . .               | Practice Teaching    |

**ENGLISH COURSE.**

Students in the first eight grades come under the instruction of teachers with thorough equipment and usually with long experience. The need of thorough preparation for advanced work in the Normal and College Preparatory Courses is so great that special attention is given to the English Course.

The first five grades cover the same work as that done by the public schools of New Orleans in these grades: Reading, Spelling, Number, Arithmetic, Language, Geography, Nature Study, etc. Science and History Readers are used for supplementary work.

Drawing, Penmanship, Nature Study, Music and the Bible are taught throughout the year in all the eight grades.

Kindergarten methods are used in the First and Second Grades.

Sewing is taught and required in all the Grades above the Third.

Cooking is taught and required in the Seventh and Eighth Grades.

The following are the Studies of the Sixth, Seventh and Eighth Grades:

**SIXTH GRADE.**

Reading.  
Arithmetic.  
Language.  
Compositions.  
Hygiene.  
History Readings.  
Geography.  
Spelling.

**SEVENTH GRADE.**

Reading.  
Arithmetic.  
Grammar.  
Compositions.  
Botany.  
Beginners' U. S. History.  
Geography.  
Spelling.

**EIGHTH GRADE.**

Reading.  
Arithmetic and Algebra.  
Grammar.  
Compositions.  
Science Readings.  
U. S. History.  
Physiology.  
Spelling.  
Chemistry.  
Domestic Science.

## MUSIC DEPARTMENT.

EDNAH M. CLARKE,  
Piano and Pipe Organ.

E. J. CARRERE,  
Violin.

MALLIE O. SAULSBY,  
Assistant in Music.

### Piano Department:

This Department affords superior advantages for the study of the various branches of music. The courses have been graded with care, presenting works leading to a classical musical education. Instruction is given in Piano-forte, Organ, Violin, Harmony, Musical History and Chorus Singing. Under the management of the Head of the Department occasional piano-forte recitals will be given by students and others.

In order to graduate from the Department, students must complete the prescribed course of musical reading.

The Mandolin Club, University Choir and Choral Union meet regularly to study musical works.

**FIRST GRADE**—New England Conservatory Course and Standard Graded Course. Op., 16, Schmitt ex. giving control of fingers, hands and arms.

**SECOND GRADE**—Schulz, Scales and Chords. Kohler op. 50, Clementi's Sonatines. Instructive Compositions.

**THIRD GRADE**—Herz Scales Arpeggios, double thirds, technical studies. Loeschorn op., 65, Books II and III. Op. 66, Books I, II and III. Heller op. 45. Mendelssohn's Songs Without Words. Czerny op. 299, Books II and III.

**FOURTH GRADE**—Technique. Czerny op. 821. Bach's Preludes and two part Inventions. Cramer Studies. Czerny Octave Studies. Kulluk Octave Studies. Ear Training.

**FIFTH GRADE**—Technique. Czerny op. 740, Three part Inventions of Bach. Schumann album. Harmony. Crowest: The Great Tone Poets.

**SIXTH GRADE**—Technique. Clementi's Gradus ad Parnassum. Chopin Etudes. Bach's Well Tempered Clavicorn. Theory. Musical History. W. S. B. Mathews.

**SEVENTH GRADE**—History of Music. Higher music of Classic Forms. Public Recitals.

## Violin and Mandolin.

---

**VIOLIN—Five Grades**—Danclo's Method as a foundation work. When the students are far enough advanced, practical training in Orchestra is given without extra charge.

**MANDOLIN—Three Grades**—Langey method as a foundation.

### Organ Recital.

#### REED ORGAN—ONE MANUAL.

Imperial Method used as a foundation study.  
Exercises in all Keys.  
Introductory use of the swells.  
Scales in three motions.  
Theory.

#### SECOND GRADE.

Arpeggios in three octaves.  
Hymn playing.  
Theory.

#### THIRD GRADE—TWO MANUEL ORGAN.

Two and three part playing.  
Studies in Thirds and Sixths.  
Studies in Minor Keys.  
Arrangements from Mozart, Beethoven and Clementi Theory.

#### FOURTH GRADE.

Score playing.

#### FIFTH GRADE.

Fugue playing.  
Overtures.  
Orchestral Work.  
The works of Bach and Modern Composers, including selections from all the Oratorios.  
Students in this grade are made Assistant Directors in public performances given by the Department, and thus acquire practical knowledge of great value.

### Pipe Organ.

---

The study of this instrument may not be begun without a previous knowledge of the Reed Organ equal to at least two grades. Rinks-School is used as a foundation study.

It is the design of the Management to enlarge the Department of Music the coming University year.

## INDUSTRIAL DEPARTMENT.

### PECK SCHOOL OF DOMESTIC SCIENCE.

This school is supported by the Woman's Home Missionary Society of the Methodist Episcopal Church and is a regular department of the University. Teachers in this department are recognized as members of the Faculty of the Institution and share in all the duties and privileges which pertain to this membership.

Two courses are offered as follows:

#### Domestic Science.

##### OUTLINE OF COURSE.

The purpose of the Department of Domestic Science is to afford training in the subjects which pertain to life in the home.

**Air**—its composition and relation to fire, plants and to man.

**Heat**—its principles and their significance and use—the study of fuels and cooking apparatus.

**Water**—its composition, forms, impurities, cooking temperature, aids to cleanliness and relation to food, health and to plants.

**Physiology**—functions and structure of the body, with special emphasis upon digestion, hygiene, emergencies, and home nursing.

**Bacteriology**—the part which bacteria play in nature, and their industrial uses; the bacteria of air, water, ice, milk and foods—the methods of sterilization and disinfection, and the relation of bacteria to disease.

**Dietetics**—composition of the body, its waste and repair, composition and proportion of food required.

**Nature Study**—the principles and methods based on observation and inference.

**Sanitation**—scientific principles conducive to the maintenance of healthful conditions, as to the cleaning of the house, care of the cellar, water supply, drainage and plumbing, ventilation, lighting, heating, healthful furnishings and systematic methods of housekeeping.

**Marketing**—economical purchase and preservation of food.

**Serving**—as to wholesomeness and attractiveness, the care of the dining room, and duties of a waitress.

**Cookery**—its general principles and their modifications in the preparation of food for persons living under widely varying conditions, and cooking for invalids.

**Food**—why necessary—the most wholesome food, the cheapest food, the best food, principal methods of cooking, reasons for cooking, directions for measuring, hints on how to work

#### CLASSIFICATION OF FOOD.

Study of food principles and effect of heat, Proteids, Carbohydrates, Fats and Oils, Mineral Salts, Water, Combination of Food Materials.

#### i Cookery Course.

**Fuel Foods**—the study of starches, principles of cooking, digestion, test for starch, different ways of cooking potatoes, cereals and other starchy foods, their composition and food value.

**Breads**—the study of wheat and the manufacture of flour; the study of yeast and fermentation, the baking of different kinds of bread, rolls, etc., quick breads—as batters, muffins, biscuit, popovers, griddle cakes, corn cakes, etc.; the study of soda, cream tarter and baking powder, the making of baking powder.

**Fats and Oils**—their composition, food value and uses in cookery.

**Tissue Building Foods**—different methods of cooking eggs, milk, cheese, meat, fish, poultry, game, etc., their composition, food value, digestibility, directions for selecting, and temperatures for cooking; the making of soups, and their uses in the diet.

**Vegetables and Fruits**—methods of cooking and serving different kinds of vegetables and fruits—their composition and food value—the preserving of fruits.

**Salads**—essentials and arrangement of salads—garnishings and dressings.

**Deserts**—the making of puddings, pies, custards, sauces, jellies, creams and ices.

**Cake**—the mixing and baking of different kinds of cake—candy making.

**Beverages**—tea, coffee, cocoa, chocolate and cold drinks.

Courses in Laundry are also given.

---

### Domestic Art.

The instruction in this department includes Plain Sewing, Fancy Work and Dressmaking. Practice work is given in all kinds of hand-sewing, cutting and the use of the sewing machine.

**Plain Sewing**—Proper use of thimble, needle and scissors, basting and various sewingstitches; overhanding, overcasting, hemming, French hems etc.; seams, felling and French seam; mending and darning; buttons and button holes; piecing quilts; making garments, such as aprons, underwear, shirt waists and wash dresses.

**Fancy Work**—Hemstitching, Crocheting, Drawn Work, Embroidery Battenberg, Fancy articles of all kinds.

**Dressmaking**—Those who finish this course will be able to do the work of a regular dressmaker

---

The University offers the following course to students who have previously completed the English Course. Part of the studies in this course are taken in the Peck School of Domestic Science and part in the Normal and College Preparatory Departments. A certificate of graduation will be given to students who complete this course.

#### FIRST YEAR:

Physical Geography,  
English Classics,  
Food Production and Manufacture,  
Plain Cookery, (of all kinds),  
Household Chemistry,  
Household Sanitation,

English Bible  
Botany,  
Needle Work,  
Textiles,  
Cutting and Fitting Garments.  
Dressmaking.

#### SECOND YEAR:

General History,  
English Composition,  
Advanced Cookery,  
Household Economies,  
Laundering and  
Home Nursing,

Bookkeeping,  
Civics,  
Household Art Design,  
Advanced Dressmaking  
Embroidery and  
Fancy Work.

### Stenography.

The Isaac Pitman System of Short Hand has been successfully taught the past seven years. Many young people could easily fit themselves for offices and as private secretaries by one year's faithful work in this department.

### COURSE OF INSTRUCTION.

First Term—Phonographic Teacher—Practice.

Second Term—Manual of Phonography—Practice.

Third Term—Phonographic Reporter—Practice and reporting chapel speeches for College paper. Two speeches at the least are required of each student.

Thorough courses in typewriting are carried on under competent instructors during the entire school year.

### NIGHT SCHOOL.

For many years the Night School has been a very important feature of the University. Beginning with the opening of the next session, the work of this Department will be greatly increased. Music, Commercial Branches, and all the studies of the English Course will be taught and credits will be given in all grades upon the passing of satisfactory examinations. Students must be regular in attendance and prompt in the payments of dues in order to receive credits. The rates will be the same as for day students.

### THEOLOGICAL DEPARTMENT.

The Board of Trustees has directed that a full Theological course in English be arranged and the work of the School of Theology be carried forward regularly. The fact is recognized that the extended and critical study of Hebrew and Greek by the best scholars of all lands has brought the results of the latest research within the reach of the English scholar.

It is not wise for those whose educational advantages have been limited to undertake to pass judgment upon this work so ably done for them.

The aim of the English Course in Theology is to reach through the English text and all available helps, a thorough preparation for the work of the gospel ministry in the shortest time practicable. It is believed that this can be done by many pastors who are willing to economize time for regular and systematic study.

A certificate will be given those completing the course.

Graduates having finished the Biblical Course, may complete, in two years, the full Seminary Course at Gammon Theological Seminary, Atlanta, Georgia.

The following is the work required and covers the same ground as in our best institutions, viz:

|                      |                                  |
|----------------------|----------------------------------|
| Practical Theology.  | Rhetoric.                        |
| English Bible.       | Biblical Exegesis—Old Testament. |
| Church History.      | Historical Theology.             |
| English History.     | Sacred Rhetoric.                 |
| Systematic Theology. | History of Methodism.            |
| Church History.      | Bible and Hymn Reading.          |
|                      | Biblical Exegesis—New Testament. |

The time of lectures and recitations is specially arranged to suit the convenience of city pastors. It is hoped that a large number may be able to complete the course while still meeting all the obligations of the pastorate, indeed, it is confidently believed that the churches will gain much in the quickened thought and wider range of knowledge that will thus come to their pastors. Local preachers and young men thinking of entering the ministry are earnestly advised to begin a thorough preparation for the great work whereunto God has called them.

---

## UNIVERSITY SOCIETIES.

---

### The Mallalieu Literary Society.

---

#### OFFICERS

|                       |                          |
|-----------------------|--------------------------|
| C. A. BARRETT .....   | President.               |
| C. BAKER .....        | Vice-President.          |
| J. T. STOCKINGS ..... | Corresponding Secretary. |
| J. C. WILKERSON ..... | Recording Secretary.     |
| LEE HAMPTON .....     | Treasurer.               |
| JAMES M. HALL .....   | Critic.                  |
| ANDY JOSEPH .....     | Sergeant-at-Arms.        |
| WILFRED MADERE .....  | Chaplain.                |

This Society was organized in 1886. Its influence upon the literary training and culture of the young men is held in high esteem, both by the Faculty and the young men themselves. It meets once a week, in a handsomely furnished hall, set apart for this purpose, to engage in literary exercises and debates. Its membership is composed of a large majority of the young men in school. Its elections are held at the close of every school term.

---

### The Athenian Literary Society.

|                         |                          |
|-------------------------|--------------------------|
| EVELYN LOWERY .....     | President.               |
| IDA W. JOHNSON .....    | Vice-President.          |
| CLARA ROBINSON .....    | Recording Secretary.     |
| MARY O. TAYLOR .....    | Corresponding Secretary. |
| RUTH NIXON .....        | Treasurer.               |

The Athenian Society was organized January 10, 1895. The object of the Society is to cultivate thought, expression and an acquaintance with men of letters, and a correct knowledge of parliamentary usage.

Private meetings are held every Monday, at the close of school, and public meetings on the third Monday of each month.

All young lady students of the University who wish to acquire literary culture should become members of this society.

---

### Young Men's Christian Association.

|                     |                               |

## TEMPERANCE SOCIETY.

---

This Society is in charge of members of the Faculty in turn.

The meetings of this Society are held every alternate Sunday night in the University Chapel. The various phases of the temperance question are fully discussed, and the awful evils of intemperance clearly shown. The students are urged to take the triple pledge against the use of intoxicating drinks, tobacco and profanity. Nearly all of the boarding students take this pledge. The interest in the work of the Society during the past year has been excellent.

---

### William Taylor Band of Friends of Africa.

|                     |                          |
|---------------------|--------------------------|
| WILFRED MADERE..... | President.               |
| BESSIE GARVIE.....  | Recording Secretary.     |
| IDA JOHNSON.....    | Corresponding Secretary. |
| MALLIE SAULSBY..... | Treasurer.               |

The purpose of this Society is to keep constantly before the minds of the students the redemption of Africa. Sunday night services are regularly held. Students become members by signing the following pledge:

1. I will pray daily for the evangelization of Africa, and the success of the William Taylor Missions.
2. Whenever practicable, I will meet with the Band once a week for the consideration and discussion of matters pertaining to the evangelization of Africa.
3. I will make constant efforts by reading, conversation and other methods to become familiar with the needs of Africa.
4. I will hold myself in readiness to go to Africa at the call of God and the church.

The Society has just closed its fifteenth year. Several members of upper class have decided to go to the Dark Continent if the way opens. The Institution rejoices greatly in the good work done in Africa by its representatives, Dr. A. P. Camphor President of West Africa College; Mrs. Camphor and Prof. D. F. Osborn.

CLASS OF NURSES.

---

## GENERAL INFORMATION.

---

### ADMISSION.

New Orleans University is open to young men and women of all races and religions. It aims to give all, alike, a thorough Christian education.

Applicants for admission must furnish satisfactory evidence of good moral character.

No student leaving another school during the year will be admitted without a letter of honorable dismissal.

Students are not admitted for less than one month, and no deduction will be made for absence except in case of protracted sickness.

Students coming from other schools must bring a certificate showing what studies they have completed.

Students should be in attendance on the first day of each term, so as not to hinder themselves or others.

---

### EXAMINATIONS, GRADES, ETC.

Twice each term all students are required to pass a written examination and are graded accordingly.

A daily record is kept, in each recitation, of the student's proficiency and, this averaged with the examination grade, determines the student's actual standing in a given study.

A grade of seventy-five per cent. in any study is necessary for advancement in all grades above the Fifth.

In the first five grades an average of seventy per cent. is required. These grades are placed upon the permanent record of the University, and abstracts are sent to parents at the close of each term, upon request.

Students may not take less than four studies without special permission.

Those who do not wish to complete the regular courses of study are permitted to make selections subject to the approval of the faculty.

Declamations and compositions are required of all students above the fourth grade until the close of the Junior Year.

---

### DEGREES.

The degree of Bachelor of Arts or Bachelor of Science is conferred on those who complete the College course and pass satisfactory examinations.

By vote of the Faculty and Board of Trustees, the degree of Master of Arts may be conferred upon Bachelors of Arts of at least three years' standing who have sustained a good moral character and have been engaged continuously in definite literary pursuits since graduation.

Application for the degree of Master of Arts should be made to the Faculty at least six weeks previous to Commencement, accompanied with a fee of five dollars to pay for the diploma.

**EXPENSES.**

|                                                                 |           |

| Certificate, College Preparatory.....                           | 2.00      |
| Certificate, Musical Department.....                            | 2.00      |

All bills must be paid in advance. Books and personal laundry, extra.

The children of traveling ministers are given half rates in tuition. No deduction in expenses for holidays.

**TEXT BOOKS.**

Students should not purchase text books until they are assigned classes. Books and Stationery of all kinds used in the school can be had at the office of the University at cost, but no credit can be given. As text books are frequently changed, second-hand books should not be purchased before consulting the President or designated officer.

**LOCATION AND BUILDINGS.**

The University at 5318 St. Charles Avenue is in one of the most beautiful sections of the City of New Orleans. The grounds include nearly two city squares.

The main building is of brick, five stories high, one hundred and fifty feet front, with an ell in which is a large dining room and kitchen on the first floor and on the second floor a chapel 36x60 feet.

Besides large parlors and society rooms there are rooms for one hundred and fifty students in the building.

The heating is by steam and every precaution has been taken for comfort and safety.

A frame building 36x78 feet, two stories high, is used exclusively for recitation rooms. It will accommodate three hundred and fifty students, so that ample provisions have been made for all who may attend.

The main building is provided with fire escapes.

The value of the entire property is \$200,000.

During the year now closing a new building, valued at \$15,000 has been completed. This building, called the Annex, contains an auditorium, seating seven hundred, beside recitation rooms and laboratories.

---

**STUDENTS AID AND SELF HELP.**

During the present year nearly all the students who have expressed a desire to work about the building and grounds have been given employment and have been paid liberally for the work done. The present system will be continued next year, with the distinct understanding that employment will be taken away from such as do not perform their work in a quiet and willing manner. No student may work out except by the written permission of the President. This permission is given to but few students, and only those in the higher classes.

---

**GOVERNMENT AND REGULATIONS.**

It is the aim of the University to develop the habit of virtuous self-government, so that this will become a fixed principle of character. With this end in view the rules adopted are plain and reasonable.

Students who do not apply themselves diligently to their studies, who do not conform willingly to the rules, or whose influence is evil, will be suspended or expelled at the discretion of the President.

There are regular hours. These must be scrupulously observed.

Ladies will not receive visits from gentlemen except by permission of the President. Such visitors must be fathers or brothers.

Students are in no case allowed to make or receive calls on Sundays.

Students whose parents or guardians do not reside in this city must board in the building. All students in the Fourth Year Normal and Senior College Year are required to board in the building, unless excused by the President.

Students will not be allowed to discontinue a study until completed without the consent of the President and the professor.

All boarding students are required to attend University Sunday School, Preaching Service, afternoon quiet hour and Evening Services.

All students are required to attend a daily Chapel exercise consisting of singing, Scripture reading and prayer.

No student boarding in the University is to be absent from the grounds except by permission.

Students will keep their rooms clean, in good order, and ready for inspection at proper times.

Students must not contract debts, either at the University or with outside persons. Parents and guardians are expected to provide in season for all necessities and to forbid incurring debts.

The use of intoxicating liquors or tobacco in any form, using indecent or profane language, and all other improper acts are strictly forbidden.

Students are not allowed to have in their possession fire-arms of any kind.

Students must deposit twenty-five cents for room key, which will be refunded at the end of the session when the key is returned.

Teachers are required to be examples of industry, faithfulness, neatness and willing compliance with all reasonable requirements.

**SUGGESTIONS.**

We advise all on their arrival at the University to deposit their money with the President for safe keeping. In this way parents and guardians may provide that their money shall be spent only for necessary school expenses.

Money for students should be forwarded to the President, or in his care, by Post-office Money Order or Registered Letter. A receipt will be given for all money deposited.

Direct all letters and packages in care of the President, New Orleans University, 5318 St. Charles Avenue, New Orleans, La.

Every student should be provided with rubber shoes and an umbrella, also with plain and comfortable clothing to last at least one term.

Young ladies should not wear white dresses or skirts, but provide themselves with colored skirts and plain dresses.

Simplicity in dress is encouraged.

All boarding students should bring with them a pair of blankets and a quilt.

---

**CAUTION.**

On arriving in the city have nothing to do with hackmen or draymen, but inquire of a policeman for Canal Street, then take a St. Charles Avenue or St. Charles Belt electric car, at the foot of Canal or Baronne Streets, which will bring you direct to the University on the street car.

Keep your checks till arrival at the University, and your baggage will be sent for and delivered at the least possible expense.

Do not start from home so as to arrive in the city on the Sabbath.

Students will find it greatly to their advantage to enter at the beginning of the term.

---

**MAIL MATTER.**

The President or designated officer claims and exercises the right to open and inspect all mail matter addressed to young ladies, excepting such as comes from their parents.

**FLINT MEDICAL COLLEGE.****FACULTY.**

---

REV. JOHN WIER, A. M., D. D.,  
President.

A. D. BUSH, M. D., DEAN,  
Professor of Anatomy and Gynecology.

J. W. THOMAS, A. B., M. D.,  
Professor of Medicine and Surgery.  
Lecturer on Eye, Ear, Nose and Throat.

WM. H. HARRISON, A. M., M. S., M. D.,  
Professor of Obstetrics and Materia Medica.  
Lecturer on Neurology.

H. W. CUMMINGS, B. S.  
Professor of Chemistry and Physiology.  
Lecturer on Histology and Physics.

P. K. SELLEW,  
Lecturer on Pathology and Bacteriology.

J. A. HARDIN, M. D.,  
Lecturer on Hygiene.

RIVERS FREDERICKS, M. D.,  
Lecturer on Physical Diagnosis.

H. W. CONNORS, B. S., M. D.,  
Lecturer on Genito-Urinary Diseases.

S. D. REDMOND, M. D.,  
Lecturer on Medical Economics.

A. E. P. ALBERT, M. D.,  
Lecturer on Dermatology.

HON. R. C. METOYER,  
Lecturer on Medical Jurisprudence.

C. O. GREENE-MIMS, Ph. C.,  
Professor in Pharmacy.

VALCOUR CHAPMAN, Ph. C.,  
Assistant Professor in Pharmacy.

J. F. VALENTINE, D. D. S., M. D.,  
Lecturer on Dental Surgery.

**FLINT MEDICAL COLLEGE.****FOUNDED IN 1889.**

Nineteen years ago the Medical College of New Orleans University was opened. When, in 1873, the charter of the University was secured from the Legislature of Louisiana, by the thoughtful provision of Rev. J. C. Hartzell now Bishop of Africa, a section was inserted, authorizing the establishment of a Medical College.

**CHANGE OF NAME.**

At a meeting of the Board of Trustees in May, 1901, following the action by the Board in Cincinnati, the name of the Medical Department was changed to Flint Medical College of New Orleans University.

This was done in honor of Mr. John D. Flint, of Fall River, Mass., who from the first has been a benefactor and more recently has provided so liberally for the endowment of the Hospital and Nurse Training School.

**LOCATION AND BUILDINGS.**

On the 31st of May, 1890, the present property was bought. The building has a front of 22 feet and a depth of 114 feet; is a large three-story brick structure, well lighted and ventilated. Its lecture and recitation rooms, dissecting rooms, laboratories and rooms for clinics are well adapted to the work of the school. It is situated in an open airy space at the corner of Canal and Robertson Streets, near the center of the city, and is convenient as a clinic for the large surrounding population. Street car lines from all parts of New Orleans lead to its immediate vicinity.

The lot on which the building stands is 114x64 feet, affording room for an addition to the building, which will be put up as soon as needed.

Adjacent to the College is the Sarah Goodridge Hospital, whose staff is composed of Professors in the College. Members of the Senior Class are frequently permitted in the wards to study cases under the supervision of the physician in charge.

**ADVANTAGE OF LOCATION.**

The school is located near the center of the Metropolis of the South and is easily reached by electric street car lines from all parts of New Orleans enabling students to room in distant parts of the city if they so desire. The mild winter season, with its long period of daily sunshine, renders the use of fuel almost unnecessary, and makes a delightful winter climate, rendering New Orleans a most delightful place in which to live.

"Flint" is the only medical school in the far South open to colored students, to whom it offers exceptional opportunities for acquiring a splendid training in medicine. The aim of the school is to give a thoroughly practical and scientific medical education. Students who desire to pursue their studies here will no where in the South find themselves surrounded by more that is calculated to please, improve and instruct them than in New Orleans. Moreover, in no other city in the South, is there so much available clinical material.

**ENDOWMENT.**

Through the unceasing interest and indefatigable labors of Bishop W. F. Mallalieu, an endowment fund is being secured which will soon give the Medical College a needed income for the better maintenance of the school.

### OPENING AND DURATION OF SESSIONS.

The Nineteenth Annual Session will begin Thursday, October 1, 1908, and will continue for seven months.

Four separate sessions, extending over four separate calendar years of study are required of all candidates for the degree of Doctor of Medicine.

### ADMISSION.

The school is open to all, irrespective of sex, or religion.

Applicants must be at least 17 years of age and of good moral character.

The following requirements for admission to the Medical course have been adopted by the Association of Medical Colleges, of which Association Flint Medical College is a member. In accordance with the rules of this Association we shall insist that all who are received into the entering class henceforth shall comply with these requirements:

1. He must be the possessor of a bachelor's degree from an approved college or university; or

2. In case the applicant has not received his bachelor's degree he must present a diploma from an accredited high school, normal school or academy having a course equal to that of the corresponding departments. Opportunity will be given the student to make up his Latin or sciences if he is deficient in these branches.

3. In case the applicant has no acceptable diploma he must stand an examination in all the studies included in a full college preparatory course. If the applicant passes a satisfactory examination in all these studies he will be matriculated without condition. A student may be allowed to enter on his medical work conditioned in not more than two studies, and these conditions must be removed by satisfactory examination before he is allowed to enter on the second year of his medical course.

Section 4. Colleges, members of this Association, are free to honor official credentials from medical colleges of equal requirements, excepting the branches of study embraced in the last year of their own curriculum. The credentials from this school will consist of printed statements of work accomplished signed by the Dean.

Students are earnestly advised, to take if possible an academic or collegiate course before commencing the study of medicine.

Because of the growing sentiment in favor of more advanced requirements for admission, the better schools of the country will require after 1910, that candidates for Matriculation in Medicine shall have had at least one year's work in College. In accordance with this sentiment, Flint Medical will after 1910 give a preparatory year's work in Biology, Physics and Chemistry for the benefit of all Matriculants who have not had a year's work in a literary College.

The right is reserved to refuse admission to all persons who have assumed the title of M. D., without having received a diploma from some reputable Medical College, or who have been guilty of any unprofessional conduct.

The examination for admission will be held at the college building, at 10 o'clock a. m., on Monday, September 28, 1908.

No advanced standing will be allowed holders of literary degrees.

Candidates are required to present themselves at this time, as they are expected to be in attendance on the first day of the term when the regular course of instruction begins. To be late, places a student of any class under great disadvantages, from which he does not in many cases recover during the entire term.

Actual attendance on 85 per cent, of all the exercises of each subject will be required, in order that students receive credit for time on such subject.

No student will be enrolled for the session after October 30th.

Before admission to examination every candidate is required to present to the chairman of the Examining Committee the Dean's receipt for the payment of tuition. It will therefore be necessary for the candidate to apply first to the Dean, pay his fees and be registered. In case of failure to pass the examination the money paid preliminary thereto will be returned.

### INSTRUCTION FOR WOMEN.

The course of instruction for women is in all respects equal to that for men. Most of the lectures and public clinics, the laboratory work and various class exercises, can, it is found, be attended with propriety by the classes at the same time.

We are gratified with the high grade of ability shown, and work done by women in the medical classes. Everything will be done to encourage an increased attendance of women in this school for no fact is better demonstrated than that they make successful medical students and practitioners. No where in all the country is there a greater need for women physicians than among the people of the South. No field of activity is now open to woman in which she accomplishes more good or obtains better remuneration for services than as a trained nurse or physician.

### SCHEDULES OF STUDIES.

#### First Year

Anatomy.  
Histology.  
Physiological Physics.  
Inorganic Chemistry  
Medical Latin.  
Laboratory.

#### Second Year

Anatomy.  
Physiology.  
Organic Chemistry and Analysis.  
Materia Medica and Therapeutics  
General Pathology.  
Bacteriology.

**Third Year.**

Materia Medica and Therapeutics.  
 Special Pathology,  
 Practice of Medicine, A.  
 Physical Diagnosis.  
 Principles of Surgery.  
 Physiological Chemistry.  
 Electro Therapeutics.  
 Bacteriology.  
 Analysis.  
 Hygiene.  
 Toxicology.

**Fourth Year.**

Practice of medicine, B.  
 Surgery, Operative.  
 Diseases of Women and Children.  
 Obstetrics.  
 Dermatology.  
 Medical Jurisprudence.  
 Ethics.  
 Ophthalmology.  
 Laryngology.  
 Otology.  
 Neurology.

---

**METHODS OF INSTRUCTION.**

---

The system of correlating closely allied subjects, found so desirable by the experiments of the past year, will be still further elaborated and continued this next year. Thus, instead of having each branch taught as a subject in itself, as is the accepted custom, it will be taught in close relationship to its most cognate branch. For example, a first-year student will learn in Histology the minute structure of the part lectured on in its gross aspect the same day in Anatomy; the second-year student will go from his review work in Anatomy to Laboratory work on the same subject in Physiology; likewise the third-year man, after hearing of a given disease in Practice, will discover the same day in the Pathological Laboratory the morbid anatomy underlying that disease. Thus, throughout the whole course, the work will be so pre-arranged that every subject in any one branch will be studied in close conjunction with its related aspects in other branches. In this way, a vast number of apparently isolated facts will be indissolubly grouped together, and will appear in the student's mind, as in the physician's, indispensable parts of an harmonious whole.

The practical value of this method, in firmly fixing in the student's mind essential facts, cannot be overestimated.

**ANATOMY.**

A course of lectures covering the field of Descriptive Anatomy will be given students of the first and second classes. These lectures will be so illustrated by black-board sketches, charts, models and specimens, and by frequent references to the facts of comparative anatomy and embryology, as to give each student a thorough grasp of the subject.

**Dissection** of a lower or an upper half is required of each student, one part to be dissected in the first year, the other part in the second year of study. After the dissection of each part is completed, which must be done in a careful and satisfactory manner, the student is examined in the anatomy of the part dissected, and if he pass on the same he is credited therewith.

**The Dissecting Rooms** are under the charge of the demonstrator, and are so situated as to be well lighted and abundantly supplied with fresh air.

**MICROSCOPY AND HISTOLOGY.**

1. The Microscopical Laboratory is well equipped with microscopes with immersion lenses, microtomes, and apparatuses necessary for histological, physiological, bacteriological and pathological work. The student after being made familiar with the mechanism and use of the microscope is instructed in the method of fixing, hardening, embedding, staining, cutting, mounting and recognizing specimens of all the important organs and tissues in the body. Two laboratory periods of two and half hours each are given each week to Histology, together with recitation from the Text Book. The course in Histology will be chiefly practical, however, the recitations being largely supplementary. Each student will be required to make a complete set of sections of the more important histological structures. This course will be very closely correlated to anatomy for first-year students.

**BACTERIOLOGY.**

The Bacteriological Laboratory is well fitted with all the modern appliances requisite for work along this line. Special attention is given to technique and the identification of both pathogenic and non-pathogenic micro-organisms. The course consists of laboratory periods, recitations, and lectures. In view of the high importance which this subject has in recent years assumed as a branch of scientific medicine, a thorough mastery of its principles is expected of all students. This subject is taught to second year students during the first half of the Session, and will be closely adjusted to the work in General Pathology. It will be incidentally reviewed in the third year.

**PATHOLOGY.**

This subject is taught by recitations, lectures and practical work. The Sarah Goodridge Hospital furnishes a variety of material for the exhibition and explanation of fresh naked-eye specimens and a series of illustrative microscopic sections is given to each student for mounting.

Special individual work in pathological histology is encouraged and students will be assigned to prepare papers on pathological subjects for discussion by the Class in conference. General pathology is taken up by second year students during the latter half of the Session, and Special pathology by third year students throughout the Session. This course will naturally follow Anatomy in the second year, and practice in the third year.

**GENERAL CHEMISTRY.**

Instruction in this subject begins with Inorganic Chemistry and is given to first year students by means of lectures, recitations and laboratory work.

Organic Chemistry is taught to the second class in a similar manner. Each student is assigned a desk in the Laboratory, fitted with the necessary reagents and performs for himself numerous experiments and manipulations under the direction of the Professor and his assistants.

**PHYSIOLOGICAL CHEMISTRY.**

This course is given to third year students. It begins with the Principles of Analysis and includes the examination of urine, digestive juices, milk and drugs. It is largely practical and free use is made of the microscope in the teaching of the subject.

### PHYSIOLOGY.

Physiology will not be taught hereafter until the second year, as it is necessary that the student be first thoroughly grounded in the anatomy of the human body, before attempting to learn its various functions. This arrangement will obviate the delays incident to explaining structure, previous to discussing organic activities. Familiarity with this important subject will be acquired by the inductive method chiefly, the student learning by actual experiment in the laboratory, assisted by illuminating talks by the demonstrator, the different physiologic phenomena. Reviewing his anatomy in the second year, the student will proceed from the lecture on Anatomy to the laboratory of Physiology and there apply his fund of knowledge to the discovery of further facts. Much new apparatus has been purchased for this Department.

### MATERIA MEDICA AND THERAPEUTICS

will be taught to both the second and third year classes, but in different ways. The second year class will study the crude drugs and their different preparations in the Pharmacy Laboratory, and by various experiments, will observe the physiological action of the different drugs. Therapy will also be discussed to the extent of general classification.

Third-year men will proceed from their lectures on Practise to the Pharmacy Laboratory and there review such drugs as were mentioned in the lecture on Practise, consider the relations of drugs in prescriptions, the compounding of prescriptions, and the subject generally from the standpoint of both the physician and the pharmacologist.

### GYNECOLOGY.

Instruction in Gynecology is both didactic and clinical. Lectures, thoroughly covering the field are interspersed with frequent recitations. The outdoor clinic furnishes valuable assistance in training sight and touch for the making of diagnoses; while, in the Hospital, are performed many abdominal and pelvic operations, which may be attended by the properly qualified.

### OBSTETRICS.

This branch is taught both by lectures and recitations. In addition to the class room work, frequent clinics are given, demonstrating methods of examination and diagnosis.

Students are permitted to witness confinements occurring in the Hospital and occasionally others in private practice, through the courtesy of the attending physicians.

### SURGERY.

The Principles of Surgery will be taught by means of lectures and recitations during the third year, together with Minor Surgery and Bandaging, and Venereal Diseases. Frequent recourse will be had to the laboratories of Pathology and Bacteriology to more fully illustrate the subject.

Operative Surgery will be taught during the fourth year. Operations will first be thoroughly described in detail, then performed on the cadaver by the student, under a preceptor's supervision. Associated work in other departments will be closely correlated. Students will be admitted to the operating room in the Hospital, made familiar with the instruments, and become assistants and witness to the various operations.

**PRACTISE OF MEDICINE.**

Work in this branch will consist of didactic lectures and frequent recitations throughout the third and fourth years. Clinical lectures and demonstrations will also be given as opportunity permits. Closely associated with this course will be laboratory work in pathology, pharmacology and diagnosis. An accessory course in physical diagnosis and regional anatomy is also planned.

The privileges of the Hospital are open to Seniors under suitable restrictions.

**PEDIATRICS.**

Besides giving instruction in the more common diseases of childhood, this department will pay especial attention to the hygiene and feeding of infants; the dietetics of childhood, and, especially the digestive disorders, resulting from improper or unsuitable food; the anatomical and physiological peculiarities of infancy and the result such may have on the manifestations of disease.

**HYGIENE.**

Inasmuch as proper hygiene precautions constitute the most effective means of preventing disease, this subject will receive the attention, which its importance demands. Especial stress will be laid upon the influence of environment and occupation, ventilation, water, plumbing, sewerage, school hygiene, and contagions.

**OTHER DEPARTMENTS.**

The other subjects of the course, viz: Diseases of Eye, Ear, Nose and Throat, Electro-Therapeutics, Dermatology, Diseases of the Nervous System and Medical Jurisprudence are taught by lectures and recitations, use being made, in cases where it can be done, of such models, charts, preserved specimens and apparatus as serve the purpose of illustration and experimentation. The didactic instruction is accompanied by careful study in the clinics of the various diseased conditions which appear, and in this way lecture room, laboratory and clinical instruction supplement each other in so far as is possible.

## SCHEDULE OF NUMBER OF HOURS OF WORK REQUIRED IN EACH YEAR.

|                                | Freshman.           |       | Sophomore.          |       | Junior.             |       | Senior.             |       | Total |

## PRIZES.

Dr. J. M. May, of Alcorn College, Westside, Miss., a former student, offers an annual award of Five Dollars in coin or medal, for the best showing in Medical Diagnosis, made by a member of the Senior class.

The following persons have so far been the recipients of this prize:

1901—Dr. J. R. Sheppard, Lodi, Texas.

1902—Dr. Wilson F. Jase, New Orleans, La.

1903—Dr. Matthew J. Marmillion, Morgan City, La.

1904—Dr. J. R. Sheppard, Lodi, Tex.

1905—C. M. Wilson, Thornton, Miss.

Dr. T. Everette Speed of Jefferson, Texas, an alumnus of the school, offers an annual prize of Five Dollars for the best work in Gynecology.

The following persons have so far been recipients of this prize:

1903—Dr. Matthew Marmillion, Lake Charles, La.

1904—Dr. W. H. Dorsey, Sibley, Miss.

1905—Dr. A. W. Brazier, Hahnville, La.

Dr. Speed also gives an annual prize for the best examination in Operative Surgery. This has been awarded as follows:

1904—Dr. J. R. Sheppard, Lodi, Texas.

1905—Dr. J. J. Washington Eldorado, Ark.

**RULES CONCERNING EXAMINATION.**

The President offers an annual award of Five Dollars to the Senior passing the best oral examination before the faculty.

Aside from the frequent quizzes which the professors give the students on the subject upon which they have lectured or held recitations, a written examination is required of the student in all classes, at the end of each month, upon the studies of that month.

It is believed that this system of monthly examinations secures the performance of steadier and better work than when examinations are put off until the end of the school year. At the close of each session more extended examinations may be given, which may cover the work of the entire year.

The grades which the students get in their various examinations are registered in a book kept for that purpose.

The passing term mark on any subject is an average of 75 per cent. out of a possible 100 in the examinations on that subject. In the first year's study of Anatomy an average of 65 per cent. must be made in order to enter the second year and an average of 75 in the second is required on other subjects, in order to pass.

If a student fails to pass on any subject at the proper time for the monthly or final examination on a subject, he shall not appear for re-examination on that subject in a less time than eight weeks, except for special reasons, and he may at the discretion of the professor in charge of that subject, or of the Faculty, be required to repeat the original work or study of the subject, except in case of seniors, who, if the failure to pass be at or near the close of the term, may appear before the entire Faculty for examination on the study in question—a majority vote of the Faculty determining whether the student passes or not.

Students failing to make a passing mark in any subject, will be conditioned in that subject. Students receiving two conditions may be passed, providing a satisfactory examination in one of them is sustained at the opening of the next session; if more than two conditions are received, the student will not be advanced. Conditions are removed by taking a part or the whole of the subject over again; and no student may receive credit for a given year's work, until all conditions of the previous year shall have been removed.

Students who at the end of any session, leave the school with studies not completed, which should be completed in that session, must at the beginning, or other suitable time in their next year of attendance, take an examination on all such back studies before they can enter classes in advance. Failing to pass in this examination, they will be required to take over again the subject in which they have thus failed to pass. Examinations, however, are not received in lieu of full attendance of the recitations and lectures.

Before being recommended for graduation Senior Students appear before the Faculty for an oral examination on all the branches of the course

This with their yearly record, determines their final grade.

**TEXT BOOKS.**

Students are required to have a standard text book on each subject.

Where more than one book is named, the first is the recommended text book. The others are books of reference.

|                       |                              |             |            |

| Therapeutics,         | Wilcox.                      | Hare.       |            |

Text books for other subjects will be selected and recommended by the professors

All text books may be obtained at the office.

**HOSPITAL ADVANTAGES.**

The Sarah Goodridge Hospital occupies the building in the rear of the college on Robertson Street. Students are admitted to the Hospital under the direction of the Dean of the school, who is the Physician in Charge

The hospital affords excellent advantages for practical study of medical, surgical and obstetrical cases, and for becoming familiar with the various sick room appliances. The operating room is well supplied with the best surgical instruments and accoutrements. Here the Professors of Surgery and Gynecology as well as visiting Surgeons perform many of the major operations, before the advanced classes.

Advanced students are required to assist in the dressing of wounds and to learn all the technique of aseptic surgery.

A daily outdoor clinic is also held under the supervision of the Dean of the school. This also gives students unexcelled advantages for the diagnosis and treatment of a great variety of diseases. **No hospital fee is required.**

CLASS IN COOKING DEPARTMENT.

**FEES AND EXPENSES.**

The tuition fee for the coming year will be \$50.00, payable in advance. There will be an additional charge of \$2.00 to cover actual breakage in the laboratories.

For the convenience of any wishing to know just what part of the above expenses it will be necessary to incur during the first year's attendance, the following estimate is given, which includes, also, all the books needed by the first year student:

Tuition.....\$50 00

**TEXT BOOKS:**

|                         |                   |
|-------------------------|-------------------|
| Anatomy.....            | \$6 00 or \$ 6 25 |
| Physics.....            | 3 00              |
| Histology.....          | 1 00              |
| Chemistry.....          | 3 00              |
| Laboratory Manual.....  | 25                |
| Medical Latin.....      | 1 25              |
| Medical Dictionary..... | 1 00              |

Making a total, including books of.....\$65 75

This amount must be paid in advance.

Graduation Fee.....\$10 00

**Other Expenses.**—Good board and room, with fuel, light and washing can be obtained in private families from \$10 to \$15 per month. There are no dormitories connected with the school.

**REQUIREMENTS FOR GRADUATION.**

I. To graduate, the candidate must be at least twenty-one years of age and possess a good moral character.

II. He must have been in the study of medicine four sessions of at least seven months each in four separate calendar years.

III. He must have attended four full courses of medical lectures, the last of which must have been in this Institution.

IV. He must possess the literary qualifications, indicated in the section on admission.

V. He must have passed a satisfactory examination in the various studies of the course in accordance with the rules of the department, and have paid all college dues, including the graduation fee.

VI. The exercises of the Commencement Program will be arranged by the Faculty and positions assigned the members of the graduating class as the Faculty may determine.

The authorities reserve the right to terminate the connection of any student with the school at any time on the ground of what they may deem moral or mental unfitness for the profession.

#### TO OUR ALUMNI.

It is the earnest desire of the Faculty to keep in touch with our graduates and we should be very thankful if each one would write at least once a year, letting us know of the location, success and experience of his work. We will be thankful if anyone noting an incorrect address in the alumni record will inform us promptly.

Each alumnus is requested to get closer to his alma mater by assisting each year to add to her equipment.

#### ROLL OF STUDENTS.

**Note.**—The fact that a student's name appears in this list, does not necessarily indicate that such student has completed the work of the year, or that he will be advanced to the next year's work.

\*Deceased.

**COLLEGE OF PHARMACY.****FACULTY.**

A. D. BUSH, M. D.,  
Dean.

CAMILLE O. GREENE-MIMS, Ph. C.,  
Professor of Pharmacy.

VALCOUR A. CHAPMAN,  
Instructor in Pharmacy.

W. H. HARRISON, A. M., M. S., M. D.,  
Professor of Materia Medica; Lecturer on Botany.

H. W. CUMMINGS, B. S.,  
Professor of Chemistry.  
Lecturer on Physics.

There is a large and constant demand for competent Pharmacists, and there is perhaps no field open to young people that will offer so certain employment and as good an income as that of Pharmacy. The demand is increasing and it will be many years, apparently, before the field will be crowded as is that of most professions.

**LABORATORIES.**

A course in Pharmacy must necessarily be largely laboratory work. Recognizing this, complete laboratories for work in Pharmacy, Chemistry and Microscopy have been equipped for this course. That our course is efficient is shown by the fact that our students of even the first and second years have been able, with no other instruction than that gotten here, to pass successfully the rigid examinations of the State Boards.

The next session opens on October 1, 1908, and will close about the first of May, 1909.

**COURSE OF STUDY.****FIRST YEAR.**

Botany,  
Medical Latin,  
Metrology,

Elements of Physics,  
Chemistry,  
Laboratory Work.

Materia Medica  
Pharmacy.

**SECOND YEAR.**

Analytical Chemistry,  
Toxicology,

Pharmacognosy,  
Pharmacy,

Materia Medica,  
Laboratory Work,

**THIRD YEAR.**

Dispensing, Identification of Drugs, Laboratory.

**EXPENSES.**

Tuition, per session.....\$40 00

This includes all fees except the Diploma Fee of \$10.00, and \$2.00 breakage and waste in the laboratories. Books for the first year cost about \$15.00. All fees must be paid in advance.

### REQUIREMENTS FOR GRADUATION.

1. The applicant must be at least 21 years old and of good moral character.

2. He must have attended some regular pharmaceutical school at least three sessions of 28 weeks each, the last of which must have been in this Institution.

3. He must have passed a satisfactory examination in all the branches laid down in this course and must indicate the mental and moral fitness for the assumption of places of responsibility.

4. He must have paid all college dues.

Students meeting all these requirements will be graduated with the degree of Pharmeceutical Chemist. (Ph. C.)

### ADVANCED STANDING.

Graduates in Medicine, or Dentistry, will be allowed to complete the course in two sessions. Gradutes of recognized literary schools, who have had facilities for instruction and who on entering can pass an examination on three-fourths of the work of the first year may also complete the course in two sessions. But all work must be made up before graduation.

### GRADUATING CLASS.

**SARAH GOODRIDGE NURSE TRAINING SCHOOL.**

(Formerly Phyllis Wheatly Nurse Training School.)

This school offers two courses to young women, one mainly theoretical, the other being both practical and theoretical. By this arrangement those who can devote but a small amount of time to the subject can receive valuable information and training. All applicants should note that the year in a Nurse Training School is one of twelve months. A brief vacation is given however, during the summer.

**INSTRUCTORS.**

A. D. BUSH, M. D., Superintendent,  
Lecturer on Anatomy and Physiology.

J. W. THOMAS, M. D., Resident Physician,  
Lecturer on Fever Nursing and Surgical Nursing.

W. H. HARRISON, M. D.,  
Lecturer on Obstetric Nursing.

E. V. B. BUSH,  
Instructor in Diet Cooking and Massage.

E. P. SUTTON  
Head Nurse.

**COURSE OF INSTRUCTION.****First Year.**

Anatomy and Physiology..26 hours.  
 Fever Nursing.....26 hours.  
 Diet Cooking.....26 Exercises.  
 Principles of Nursing.....26 hours.

**Second Year.**

Anatomy and Physiology..26 hours.  
 Surgical Nursing.....26 hours.  
 Obstetric Nursing.....26 hours.  
 Massage.....26 Exercises

Besides the above didactic instruction, resident nurses are on duty daily in the Hospital for two years. Outside nurses, who come for theoretical instruction in class work, will also be required to do regular Hospital duty at least one month each year. No nurse will be promoted from the Junior class to the Senior until after having satisfactorily completed the work and passed all the examinations.

**RESIDENT NURSES.**

This is the course which is especially intended for those who desire to become thoroughly equipped for professional service.

Applicants for the course must be not less than twenty years of age, and must possess a good English education.

As a limited number only can be received in this class, applicants should file their applications early. All such applications are kept on file, and vacancies filled from those who are eligible.

It is important for those living at a distance to make all arrangements for entering this course before coming to the city.

Such as are admitted to the school receive free tuition, uniform, board and plain washing. Books, underclothing and shoes must be provided by the nurse. During the two years of training, the entire time and services under proper regulations, are at the disposal of the Hospital.

All applicants are at first admitted on probation, which period may extend from one to three months. When the probationary period has been satisfactorily passed, the person is duly enrolled as a resident nurse and furnished with uniform.

At the end of two years, after satisfactory examinations have been passed, the students of this course are graduated with a Diploma.

The exactions made upon a nurse are such as require much strength of body and good health, together with a patient, forbearing and genial disposition. Persons not possessing these qualifications should not apply.

The right is reserved to terminate the course of any nurse for causes deemed sufficient by the Physician in charge.

**OUTSIDE NURSES AND SPECIAL COURSE IN MIDWIFERY.**

Those who cannot or do not wish to reside in the hospital are received into the course of theoretical training.

Those desiring to become mid-wives will find this course to be especially suited to them.

The tuition for this course will be three dollars a month, payable in advance.

Those completing this course are graduated with a certificate. The character of these courses is such as to commend them to all young women, whether they ever expect to follow nursing as a profession or not. Few indeed there are, but that must spend a part of their time in the sick room, and that under the circumstances where an intelligent knowledge of the care of the sick would be of inestimable value and satisfaction.

The cost of books for the entire course will not be over \$10 or \$12.

The Hospital during the past year has cared for a greatly increased number of patients, the majority of which have been under direct care of the Hospital Staff. A new Hospital Building is urgently needed. Our people are rapidly recognizing the great advantage of a Hospital restricted to the care of their own race, and the patronage will soon exceed present capacity several times over. Agitate for a new Hospital Building.

## ROLL OF STUDENTS.

### RESIDENT STUDENTS.

#### Senior Class.

|                          |                                       |

GILBERT ACADEMY AND INDUSTRIAL COLLEGE.

## GILBERT ACADEMY AND INDUSTRIAL COLLEGE.

---

### LOCATION.

This Institution is located in the village of Winsted, Baldwin, P. O., Parish of St. Mary, Louisiana, four miles west of Franklin, and 104 miles west of New Orleans, on the Southern Pacific Railroad.

### CHARACTER AND ORGANIZATION.

It is **non-Sectarian**, fulfills the educational trust of the **Orphan Home**, which had a national origin and was chartered by the State for a general object.

It is supported by the Freedman's Aid and Southern Education Society. The Board of Managers of the Freedman's Aid Society are the trustees. It is a College of the New Orleans University. The Industrial and Mechanical departments are not preparatory but independent.

Guided by the hand of Providence showing the way, we have proceeded hitherto, a step at a time. Thus we expect to be directed and walk in the future.

The infinite wisdom and goodness of God will give friends and success.

We cultivate the religion of "THE TWO GREAT COMMANDMENTS" of Jesus. Thus we expect to fulfill all laws, divine and human. Experience proves that here, the only efficient and salutary power for discipline is the **RELIGION OF LOVE**. In **PATRIOTISM** we cultivate the **CONSTITUTION OF THE UNITED STATES**. That can be perfectly obeyed only by the Spirit that was in Jesus.

### CAMPUS.

The campus consists of about thirteen acres of high, well drained land, a part of which is used for garden, pasturage, and orchard, leaving a large area for the school grounds proper. These are beautifully laid off in walks and adorned with shrubs, trees, and flowers.

To the rear, bordered with picturesque old live oaks, festooned with long garlands of characteristic Spanish Moss, and, bearing on its bosom much of the commerce of the parish, flows the placid Bayou Teche, famous in "Evangeline," in which Longfellow beautifully describes the country:

"Beautiful is the land, with its prairies and forest trees,  
Under the feet a garden of flowers and the bluest of heavens  
Bending above, and resting its dome on the wall of the forest,  
They who dwell there have named it the Eden of Louisiana."

---

### SUGGESTIONS.

We advise all on their arrival at the College to deposit their money with the Principal for safe-keeping. In this way parents and guardians may provide that their money shall be spent for necessary school expenses.

Money for students should be forwarded to acting Principal, J. M. Matthews, or in his care, by Express, Money Order, or Registered Letter, payable in Baldwin, La. A receipt will be given for all money deposited.

**Each boarding student must furnish** his own bedding, including two sheets, one blanket or quilt, two pillow slips, towels, and table napkins.

Every article for the laundry should be distinctly marked in the owner's name with indelible ink.

All should be provided with plain, warm clothing, rubber shoes, over-alls, or a working suit. Showy and expensive dress is neither required nor expected.

Students whose parents or guardians do not reside in Baldwin must board in the building.

Students should not come so as to arrive on Sunday. Bring text books formerly used, but do not purchase text books until after assignment to classes. Books and stationery of all kinds used in the school can be purchased at cost at the College book store. Each student should bring a Bible.

---

#### EXPENSES.

##### To Day Students :

Tuition per month, in the Third Grade and below, \$.50; in the Fourth, Fifth and Sixth Grades, \$.75; in the Seventh Grade and above, \$1.00.

## NEW ORLEANS UNIVERSITY

was founded in 1873, and chartered by the Legislature of Louisiana. The school has had a most useful career, and has graduated from its halls many prominent and representative men of the colored race. The students have come from all the Southern States, and from Honduras, Panama, Cuba and the Islands of the British West Indies.

The University has made a unique record as a Christian School. The thoroughness of its work, the number and variety of its departments and courses, the comfort and conveniences of the Dormitories, the efficient and sympathetic care of the girls by women who understand them, the wise oversight of both sexes, the religious advantages, these all call for the attention of parents and prospective students.

### BUILDINGS AND GROUNDS.

The University, at 5318 St. Charles Avenue, is in one of the most beautiful sections of the City of New Orleans. The grounds include nearly two city squares.

The main building is of brick, five stories high, one hundred fifty feet front, with an ell in which is a large dining room and kitchen.

Besides a large parlor, class and society rooms, there are Dormitory accommodations for one hundred fifty students in this building.

A building 36x78 feet, two stories high, is used exclusively for recitation rooms. It will accommodate three hundred fifty students.

The main building is provided with fire escapes.

The value of the entire property is \$250,000.

The new annex contains a large auditorium, besides recitation rooms and laboratories.

## DEPARTMENTS.

COLLEGE.

COLLEGE PREPARATORY.

NORMAL.

ENGLISH, GRADES ONE TO EIGHT.

MUSIC.

DOMESTIC SCIENCE, INCLUDING COOKING, BAKING, ETC.

DOMESTIC ART, INCLUDING SEWING, DRESSMAKING, ETC.

COMMERCIAL, INCLUDING BOOKKEEPING, TYPEWRITING,  
STENOGRAPHY.

ELOCUTION, INCLUDING ORATORY, ESSAY WRITING,  
PUBLIC READING.

NIGHT SCHOOL, INCLUDING GRADES, ONE TO EIGHT.

## ADMISSION.

The University is open to young men and women of all religions. It aims to give all alike a thorough Christian education.

Applicants for admission must furnish satisfactory evidence of good moral character.

No student leaving another school during the year will be admitted without a letter of honorable dismissal.

Students are admitted for not less than one month, and no deduction will be made for absence except in case of protracted illness.

Students coming from other schools must bring a certificate showing what studies they have completed.

## EXAMINATIONS, GRADES, ETC.

Twice during each term, all students are required to pass a written examination, and are graded accordingly.

A record is kept of daily work in each recitation, and this, averaged with the examination grade, determines the student's actual standing.

A grade of seventy per cent. in any study is necessary for advancement.

These grades are placed upon the permanent record of the University, and abstracts are sent to parents at the close of each term.

Students may not take less than four studies without special permission.

Those who can not complete the regular courses are permitted to elect studies subject to the approval of the faculty.

### TEXT-BOOKS.

Students should not purchase text-books until they are assigned classes. Books and stationery of all kinds used in the school can be had at the office of the University. As text-books are frequently changed, second-hand books should not be purchased before consulting the President or designated officer. Books must be paid for on delivery.

### GOVERNMENT AND REGULATIONS.

It is the purpose of the University so to develop the habit of virtuous self-government that it will become a fixed principle of character. With this end in view, the rules adopted are plain and reasonable.

Students who do not apply themselves diligently to their studies, who do not conform willingly to the rules, or whose influence is evil, will be suspended or expelled at the discretion of the President.

There are regular hours. These must be scrupulously observed.

Ladies can not receive visits from gentlemen other than fathers or brothers except in the presence of a chaperon.

Students are not allowed to receive calls on Sundays without special permission.

Students over ten years of age whose parents do not reside in the city must board in the Dormitory.

Students will not be allowed to discontinue a study until completed without the consent of the President.

All boarding students are required to attend University Sunday School, Preaching Service, Afternoon Quiet Hour and Evening Services.

All students are required to attend a daily Chapel Service.

No student boarding in the University is to be absent from the grounds except by permission.

Students must keep their rooms clean, in good order, and ready for inspection at proper times.

Students must not contract debts, either at the University or with outside persons. Parents and guardians are expected to provide for all necessities.

The use of intoxicating liquors or tobacco in any form, using indecent or profane language, and all other improper acts are strictly forbidden.

Students are not allowed to have in their possession firearms of any kind.

Students must deposit twenty-five cents for room key, which will be refunded at the end of the session when key is returned.

### SUGGESTIONS AND REQUIREMENTS.

Students, on their arrival at the University, are advised to deposit their money in the office for safe keeping. The University will not be responsible for money lost unless it is thus given into its care.

Money for students should be forwarded to the President, by post-office money-order or registered letter. A receipt will be given for all money received.

Direct all letters and packages in care of the President, New Orleans University, 5318 St. Charles Avenue, New Orleans, La.

Every student must be provided with rubber shoes and an umbrella, also with plain and comfortable clothing sufficient to last at least one term.

Simplicity in dress is encouraged.

All boarding students should bring with them a pair of blankets, a heavy quilt, a mosquito bar, sheets, pillow cases, towels and napkins.

## CAUTION.

On arriving in the city, keep your checks until you reach the University. Your baggage will be sent for and delivered at the least possible expense. Take the St. Charles Belt Electric car which will leave you at the University.

Do not start from home so as to arrive at the University on the Sabbath.

Students will find it greatly to their advantage to enter at the beginning of the term.

## MAIL-MATTER.

A designated officer claims and exercises the right to open and inspect all mail matter addressed to young ladies, excepting such as comes from their parents.

## LITERARY SOCIETIES AND OTHER AUXILIARIES.

The University maintains Literary Societies, a Temperance Society, a Young Woman's Christian Association, a Missionary Society, a Sunday School, and other auxiliaries.

The Missionary Society, called the "William Taylor Band of Friends of Africa," keeps constantly before the minds of students the redemption of Africa. A goodly number of the graduates of the University are teachers and leaders in Africa, and the Society maintains a student in one of the Colleges.

In the Societies and various institutions of the University, students have a splendid opportunity for instruction and practice in public speaking and the conduct of public meetings.

The daily Chapel exercises are impressive. The University is noted for the large number of visitors who appear on the chapel rostrum. Students thus come to be familiar with representative persons in the various walks of life.

Public worship is conducted every Sabbath at 11 o'clock A. M. in the University Auditorium, with preaching by the President.

## RELIGION.

The University is positively Christian. Christian education is its policy. Its law is the law of Christ. The school is generously broad, and no attempt is made to draw students from their religious faith.

## ATHLETICS.

The University has a fine record in manly sports. The Athletic Association is under the direction of the President and Faculty, having a member of the Faculty connected therewith. The rules appended, which are rigidly enforced, indicate the clean character and strict government of play.

## RULES.

1. No student shall be permitted to be on any of the athletic teams or take part in any interscholastic contest, either at home or away from home, until he is an approved student of the University, and is making a standing in studies, work and conduct satisfactory to the Faculty.

2. After having become members of any of the teams, students shall remain on them only as long as their studies, work and conduct are satisfactory to the Faculty.

3. No match game at home or away from home shall be arranged without the consent of the President.

4. Before each match game at home or trip from home, a list of the players and substitutes must be submitted to the President through the Faculty member of the Athletic Association.

5. Any member of a team who cuts his class or neglects study in order to play or practice thereby severs his connection with the team.

6. Teams are not permitted to travel on Sunday, either going or returning.

7. No student shall receive remuneration in any form or from any source for his services on any athletic team.

## OFFICES OF THE UNIVERSITY.

The offices of the University are located at 5318 St. Charles Avenue, New Orleans, La.

Careful attention is given all correspondence. Information in detail touching all departments is promptly and cheerfully sent upon request. Address all communications to the President, whose standing address is 5318 St. Charles Avenue.

## EXPENSES.

|                                                                                                  |        |
|--------------------------------------------------------------------------------------------------|--------|

| "        Music Department.....                                                                   | 3.00   |
| The Children of travelling ministers are given half rates in In-<br>cidental Fees.               |        |

The first payment is due on registering. A payment is due on the first of every school month thereafter.

No deductions are made for absences except in case of prolonged illness.

Checks are subject to the usual exchange, and should be made with this in view.

Credit for work is applied to the expenses of the month following that in which it is done.

Students are required to care for the halls on which they room.

A laundry is furnished where the girls may do there own washing. A small fee of twenty-five cents a month is charged for soap, fire and maintenance.

From Rules made by the Freedmen's Aid Society, which the president of the University must obey.

"SECTION 2. All tuition and other student bills shall be paid in advance and no student shall be permitted to enter without presenting to the teacher a receipt, or pass-card from the treasurer showing that his bills are paid. *No President is permitted to give credit for school bills*".

## SELF-HELP AND STUDENT AID.

A desire to help one's self is commendable. However, the chief end of one's school course is not to secure a living but an education. This should be emphasized. No student as a rule can do work enough to support himself and at the same time find opportunity for study. To attempt to do so frequently defeats the purpose of his coming to the school. It is better to wait and earn money sufficient to pay at least the greater part of the expense. We can furnish only a limited amount of work for worthy students and do not guarantee work to any. The city of New Orleans offers many opportunities for young men desiring work and we are glad as far as possible to assist them in securing positions. Deserving students in the advanced classes may obtain loans, upon recommendation of the Faculty, from the Board of Education.

Independence and self-reliance on the part of students are emphasized as an important part of their education.

### NIGHT SCHOOL.

The Night School of the University will be in charge of competent teachers. Instruction will cover the work in all the grades, one to eight. Credit will be given in the Day School for work done in the Night School.

### AUXILIARY SCHOOLS.

GILBERT NORMAL AND INDUSTRIAL COLLEGE, S  
q

Baldwin, Louisiana.

J. R. REYNOLDS, A. M., Principal.

THE PEOPLE'S NORMAL AND INDUSTRIAL SCHOOL,

Lake Charles, Louisiana.

J. E. L. HOSKINS, A. M., Principal.

LIVE OAK SCHOOL, Baton Rouge, Louisiana.

REV. FRANK C. BLUNDIN, Principal.

**PECK SCHOOL OF DOMESTIC SCIENCE AND ART.**

Under the Auspices of the Woman's Home Missionary Society,  
Methodist Episcopal Church.

MISS ROSE T. ROBERTSON, *Superintendent.*

MISS MINTA HUNGERFORD, *Teacher of Domestic Art.*

MISS ELIZABETH CASSELL, *Teacher of Domestic Science.*

**DOMESTIC SCIENCE.**

Domestic Science, or household science, is very important, for it strikes at the root of things. "The home is the center of the universe, and woman is the center of the home."

The object of domestic science is to fit young women to be good housekeepers, wives and mothers, and to teach them how to keep the house so as to make it a place of health, comfort and happiness.

The drudgery connected with household work vanishes when a sufficient amount of knowledge is gained so that it becomes a science.

The Domestic Science Department offers a good, practical course in food and cooking, sanitation and general housekeeping.

**FIRST YEAR.**

Spring Term—SEVENTH GRADE—Study of fruits, beverages, water, carbo-hydrates. (a) Starches. (b) Sugar. Cookery of vegetables, cereals, fruits.

**SECOND YEAR.**

Fall Term—EIGHTH GRADE—Study of proteids, fats and oils. (a) Flour. (b) Milk. (c) Meat, eggs, fish; cooking the same. Bread and cake making.

**THIRD YEAR.**

Spring Term—FIRST NORMAL—Geography of foods; principles in cooking; advanced cookery.

**FOURTH YEAR.**

Fall Term—SECOND NORMAL—Home sanitation; home management; planning and serving meals.

### FIFTH YEAR.

Spring Term—THIRD NORMAL—Home nursing; invalid cookery.

### SIXTH YEAR.

Fall Term—FOURTH NORMAL—Dietetics; demonstration work.

## DOMESTIC ART.

The instruction in this department includes Plain Sewing, Fancy Work, and Dressmaking. Practice work is given in all kinds of hand sewing, cutting, fitting and the use of the sewing machine.

The plain sewing course includes all work from Fourth Grade through Third Year Normal, and leads to a certificate.

The Dressmaking course fits for the work of a regular dressmaker, and is a special course. It leads to a diploma. A fee of \$1.00 per month will be charged in this course.

### COURSE OF STUDY.

FOURTH AND FIFTH GRADES (Two periods per week, full year)

Use of thimble, needle and scissors; basting, hemming, seams, over-handing, over-casting, mending and darning, buttons and buttonholes, piecing quilts. Fancy work. (Outline work and cross stitch).

SIXTH GRADE (Five periods per week, full year)—

Review of seams, buttons and buttonholes, mending and darning. Making of aprons, etc., by hand.

Fancy work. (Simple embroidery stitches).

SEVENTH GRADE (Five periods per week, 1st semester)—

Making of fancy aprons, plain underwear, etc., by hand.

Fancy work. (Working initials, fancy bags, etc.).

EIGHTH GRADE (Two periods per week, 2nd semester)—Use of sewing machine, making of underwear and plain garments.

Fancy work. (Hemstitching and drawn work).

FIRST NORMAL (Three periods per week, first semester)—  
Advanced work in garment making. Use of patterns, cutting  
and fitting of plain garments.

Fancy work. (Solid and eyelet embroidery).

SECOND NORMAL (Three periods per week, second semester)  
—Practice work the same as First Normal.

Fancy work. (Crochet work.)

THIRD NORMAL (Five periods per week, first semester)—  
Fancy waists, woolen garments, making of models, etc.

Fancy work. (Advanced work in embroidery, Battenburg  
or lace making.)

The special Course will include the practice work of First,  
Second, and Third Normal, and special instruction in sewing  
for others, taking measurements, fitting, etc.

MRS. E. L. KNOSTMAN, Bureau Secretary.

# FLINT MEDICAL COLLEGE

Department of Medicine  
and  
Department of Pharmacy  
of  
NEW ORLEANS UNIVERSITY

---

SARAH GOODRIDGE HOSPITAL  
AND NURSE TRAINING SCHOOL

---

SESSION 1912-'13

## MEDICAL DEPARTMENT

### EXPLANATORY STATEMENT

For twenty years this Department continued its work as best it could with the means and equipment furnished, graduating in this time one hundred and two Physicians. But this was during a time when little or no attention was given to medical education outside the individual school. Each therefore became a law unto itself, with the result that no uniformity of courses and requirements existed, and when a few years ago the American Medical Association, through its Council on Medical education, began its work of unifying and systematizing the courses of instruction and other requirements of a medical education, it was found that Flint Medical College, for lack of proper equipment and especially of hospital facilities, came far short of measuring up to what has come to be recognized as a standard medical college. Time was given in which to make the necessary changes but for lack of funds the time went by with no changes made. There was then left but one course to pursue, and that was, to close the Medical Department, which was done in 1911, and the catalogue of 1910-'11 remains as the last official announcement.

This closing is to be but temporary, however, for the first requirement, a new hospital, we hope to get this year, and then as soon as we shall be able to erect a new college building, a class "A" Medical College will open its doors to colored men and women again.

R. T. FULLER, M. D. , *Dean.*

DEPARTMENT OF PHARMACY.

NEW ORLEANS UNIVERSITY.

## FACULTY.

REV. CHAS. M. MELDEN,  
President of the University.

R. T. FULLER, M. D., DEAN,  
Professor of Pharmacology.

EDWARD. F. LOPEZ, Phar. D.,  
Professor of Pharmacy.

VALCOUR CHAPMAN, Ph. C.,  
Instructor in Pharmacy.

G. B. KRAMER, M. D.,  
Professor of Chemistry and Bacteriology.  
Instructor in Physics and Hygiene.

GERTRUDE WILCOX, M. D.,  
Instructor in Botany and Latin.

L. T. BURBRIDGE, A. B. M. D.,  
Professor of Materia Medica and Therapeutics.

J. A. HARDIN, M. D.,  
Professor of Toxicology.

RIVES FREDRICKS, M. D.,  
Professor of Physiology.

ARISTIDE R. DEJOIE Jr., Ph. C.,  
Professor of Pharmaceutical Jurisprudence.

JOSEPH M. NELSON, Ph. G.,  
Professor of Commercial Pharmacy.

## CALENDAR.

1912.

MONDAY, SEPTEMBER 30th—Examinations for Conditioned students and Matriculation of new students.

TUESDAY, OCTOBER 1st—The Thirteenth Annual Session begins.

1913.

JANUARY 13th to 17th—First Semester Examinations.

MONDAY, JANUARY 20th—Beginning of Second Semester.

APRIL 21st to 25th—Second Semester Examinations.

THURSDAY, May 1st—Commencement Day.

## LOCATION.

The College building is located at 1566 Canal St., corner of Canal and S. Robertson Sts. near the center of New Orleans, and is easily reached by street cars from any part of the city. Take or get a to transfer to either a Canal Belt or Claiborne Ave. car and get off at S. Robertson St. directly in front of the College.

## REQUIREMENTS FOR MATRICULATION.

- I One must be at least 18 years of age before matriculating in this department, and must furnish satisfactory evidence of good moral character.
- II A preliminary education equal to one year's work in an approved High School, Normal School or Academy, or the first year of the College preparatory course of an approved College or University, will be required to matriculate in Pharmacy.
- III Women are admitted on the same terms and under the same conditions that men are.

## ADMISSION TO ADVANCED STANDING.

Advanced standings will be granted to only those who may have taken work in a recognized School of Pharmacy or medicine, and who shall furnish certified credentials for work completed in such schools, accompanied with a catalogue of the College from which credit is to be accepted.

## REGISTRATION.

At the opening of each session, students are requested to enroll their names and residences in the College Register. This Register will be closed after November 1st each year, as an attendance of 80 per cent is required and if entry is made later than this date, credit cannot be given for a full year's work. We strongly urge that all students be present on the opening day, for it is in the first few days of the school year that the foundation is laid for the whole year's work.

## COURSE OF STUDY.

### FIRST YEAR.

|                          |         |                            |          |

| Chemistry (Organic)..... | 60 "    | Commercial Pharmacy | 15 "    |

|                 |   |                          |                      |
|-----------------|---|--------------------------|----------------------|
| Laboratory Work | { | Pharmacy .....           | 150 hrs.             |
|                 |   | Chemistry { Organic..... | 100 "                |
|                 |   |                          | Analytical..... 40 " |
|                 |   | Bacteriology.....        | 60 "                 |
|                 |   | Materia Medica.....      | 60 "                 |

The three year plan of the past will be discontinued to take effect this present session. Hereafter the above course of two years will be given and all students finishing the same will be granted their degree at the end of that time.

### METHODS OF INSTRUCTION.

The subjects of this course are taught by lectures, recitation and Laboratory experiments. Laboratory courses are given in Pharmacy, Chemistry, Bacteriology and Materia Medica.

### TEXT BOOKS.

Pharmacy, Remington; Chemistry, Hollnad; Materia Medica, Potter or U.S. Dispensatory; Physiology, Howell; Bacteriology, Jorden; Dictionary, Dorland; Botany, Bergen; Toxicology, Brundage;

### FEES AND OTHER EXPENSES.

|                                           |        |
|-------------------------------------------|--------|
| Matriculation Fee (payable but once)..... | \$5.00 |
| Annual Tuition.....                       | 40.00  |
| Laboratory Fees (Each year).....          | 10.00  |
| Diploma Fee (by all graduating).....      | 10.00  |
| Books for the first year cost about ..... | 18.00  |

Board and room can be gotten in private families for from \$12.00 to \$15.00 per month.

Tuition and other fees can be paid as follows; Matriculation fee, and one half laboratory fee with one half tuition, paid on entering, the balance on or before the first day of February, or, if the entire amount is paid in full at the opening of the session, a 5 per cent reduction will be made on all but matriculation fee.

A Breakage Fee of \$5.00 will be charged for those taking laboratory work. Same will be refunded at close of session, if no apparatus has been broken.

## RULES GOVERNING EXAMINATIONS AND PROMOTIONS.

The College Year of thirty weeks is divided into two semesters. The last week of each semester is to be examination week.

Examinations will be given at no other time unless failure to take the regular examination was due to good and sufficient reasons, such reasons to be made known to the examiner or Dean, at or before the Examination.

Attendance and Quizz Record count equally with the examination grade in making up the year's average.

An average of 75 per cent in all the work for the year is required before any student will be promoted to the next higher class. Students will be promoted to the next year providing they have not more than two conditions. To be conditioned in a subject means that the year's grade in that subject is below 70 per cent.

Students promoted with conditions will be required to have same removed by the close of the first semester, and all candidates for graduation must have all conditions removed by the close of the first semester in the year they are to graduate. If a student has more than two conditions or an average below 75 per cent, he will be required to repeat the entire year's work with no time credit.

All students will be governed by these rules and by any changes or new ones the Faculty may deem necessary at any time to make.

## REQUIREMENTS FOR GRADUATION.

I. The applicant must be at least twenty years of age and of good moral character.

II. He must have been in the regular study of Pharmacy (or medicine for which credit was granted) in some accredited school at least two sessions of thirty weeks each, the last session must have been at Flint.

III. He must have passed a satisfactory examination in each of the subjects of the course and must have been in attendance upon 80 per cent of all exercises of each year, and must have

demonstrated his fitness for assuming positions of responsibility.

IV He must have paid all tuition and fees, including diploma fee.

To all who shall have complied with these requirements the Degree of Graduate in Pharmacy (Ph. G.) will be granted.

## ROLL OF STUDENTS.

NOTE. — The fact that a student's name appears in this list does not necessarily indicate that such student has completed the work of the year in which his name appears, or that he will be promoted or granted a diploma.

### SENIOR CLASS 1912.

|                    |                                    |
|--------------------|------------------------------------|
| Gowen, Frank A.    | Jackson, Miss.                     |
| Johnson, August J. | 2611 St. Ann St., New Orleans, La. |
| Lee, Abijah O.     | Marshall, Texas.                   |

### JUNIOR CLASS.

|                        |                                       |
|------------------------|---------------------------------------|
| Dyson, Hosea E.        | Lake Providence, La.                  |
| Flemings, Augustus C.  | Marshall, Texas.                      |
| Polkinghorn, Jas. R.   | Natchez, Miss.                        |
| Stewart, Bush Jr.      | Franklin, La.                         |
| Shallowhorn, Lucile J. | 441 S. Franklin St., New Orleans, La. |
| Williams, T. J.        | Houma, La.                            |

NURSE TRAINING DEPARTMENT,

SARAH GOODRIDGE HOSPITAL

NURSE TRAINING SCHOOL

Formely Phyllis Wheatly Sanitarium.

## VIRTURE.

O thou bright jewel in my aim I strive  
To comprehend thee. Thine own words declare  
Wisdom is higher than a fool can reach.  
I cease to wonder, and no more attempt  
Thine heights t' explore, or fathom thy profound.  
But, O my soul, sink not into despair,  
Virtue is near thee, and with gentle hand  
Would now embrace thee, hovers o'er thine head.  
Fain would the heaven-born soul with her converse,  
Then seek, then court her for her promised bliss.

—PHYLLIS WHEATLEY.

## HISTORICAL.

Phyllis Wheatley was born in Africa about 1753. Brought as a slave to America she was sold when about eight years of age to John Wheatley of Boston. In her master's family she developed rapidly, acquiring English quickly, and began the study of Latin. Of a deeply moral and religious nature, her reflective moods found expression in little gems of verse that won appreciative recognition both in England and America. She died in Boston, December 5th, 1784. In 1894 a group of earnest women of this city devoted to the advancement of their race and sex, known as the Phyllis Wheatley Club, conceived the idea of establishing a Training School for Colored Nurses. The school was formally opened October 31st, 1896, with five nurses entering upon the course of training. In October, 1897, because of lack of financial support, the school was taken over by the New Orleans University, and merged with the Hospital adjunct to the College. In 1901, in recognition of a gift of several thousand dollars for an endowment, the name was changed to Sarah Goodridge Hospital and Nurse Training School, and provision made for the establishment of a ward to be known as the Phyllis Wheatley Maternity Ward. Two years later, a two-story frame building, adjacent to the College, was purchased and the Hospital and Nurses Training School established therein. In 1905, the course of study was systematized and placed on a graded basis, and the work so organized that each nurse obtains a thorough training in both theoretical and practical nursing.

### FACULTY.

R. T. FULLER, M. D., SUPERINTENDENT,

Instructor in Anatomy, Gynecology, etc.

MRS. A. W. ZWICKER, R. N.,

Superintendent of Nurses.

IDA E. FULLER,

Matron.

G. B. KRAMER, M. D.,

Instructor in Hygiene.

ELIZABETH CASSELL,

Instructor in Dietetics.

A. B. JOHNSON, M. D.,

Intern.

### SESSION.

The next annual session begins October 1, 1912, and continues for thirty weeks. This is the study course (class work). It is the purpose of the hospital, however, that all new nurses shall enter in May at the close of the session each year, for two reasons; First, they will then have passed their probationary period before the opening of College; second, they will thereby finish both the study course and get in their required time at the close of the session, and hereafter no nurse will be called for at any other time except to fill vacancies that may happen during the year.

### ADMISSION.

Applicants for this course must be not less than nineteen years of age, must furnish satisfactory evidence as to character and ability (two reliable references), and must furnish evidence of having finished the eighth grade and we prefer that she shall have taken thereafter one year, or more, of either a normal or college preparatory course, or equivalent.

All applicants are admitted at first on probation, which

period may extend to three months. When this period has been satisfactorily passed the person is enrolled as a resident nurse, and furnished with her uniform (credit being given for this time).

As only a limited number can be received, those desiring to take this course, should send their application to the office early, where it will be kept on file, and when vacancies are to be filled, notice will be sent to those eligible.

The exactions made upon a nurse are such as require much strength of body and good health, together with a patient, forbearing and gentle disposition, and anyone not possessed with these qualifications or one who is looking for an easy time should not apply.

The right to terminate the course at any time for sufficient cause is reserved by the Superintendent.

### COURSE OF STUDY.

FIRST YEAR—Anatomy and Physiology; Dietetics (Theory); Bacteriology; Principles of Nursing; Fever Nursing.

SECOND YEAR—Anatomy and Physiology; Principles of Nursing; Massage; Hygiene; Dietetics (Practice).

THIRD YEAR—Surgical Nursing; Obstetrics and Gynecology; Materia Medica; Nurses Ethics.

Besides the above didactic instruction, nurses are on duty in the Hospital for the full three years, except one month's vacation each year.

Promotions will not be made from one year to the next until the nurse shall have passed a satisfactory examination in all the subjects of that year. An average grade of 75 per cent for all the subjects of the year shall be considered satisfactory, providing not less than 70 per cent shall have been made in any one branch. If less than 70 per cent is made in two subjects, the conditions may be removed by taking an examination before the opening of the next session, but if more than two conditions are pending the nurse will have to repeat the year.

## APPLICATION BLANK FOR ADMISSION TO SARAH

## GOODRICH HOSPITAL NURSE TRAINING SCHOOL

(To be filled out by Applicant and sent to 1566 Canal Street,

(New Orleans, La.)

Sign.....

Date.....Place.....

This application will be placed on file as soon as received; and if the applicant be accepted, she will be notified about when she will be expected to come. A recent photograph should also be enclosed; this will be returned.

### GENERAL REMARKS.

Four qualifications are necessary for the young woman who anticipates entering upon a course of Nurse Training.

1. She must have an intellect capable of thoroughly understanding the subjects presented in her course.
2. She must have a strong physique and robust health, for the work is arduous and the hours long.
3. She must have a cheerful, happy disposition, for good spirits are a tonic to the patient, and obedience is essential for the welfare of all.
4. She must be absolutely trustworthy and her character beyond reproach.

Another desirable requisite is a thorough understanding of domestic duties. To correctly sweep a floor, make a bed, or prepare a good meal is as necessary as to be able to take temperature, use a hypodermic syringe, or dress a wound. All are essential, and so our course embraces the most ordinary household duties as well as the highest points of nursing technique.

### FEEES AND OTHER EXPENSES.

Each nurse is required to deposit \$5.00 on entering the Hospital, but tuition, uniform, board and plain washing are free. Each nurse furnishes her own books, underclothing and shoes, and is required to have her own thermometer and hypodermic outfit, which costs but \$2.00, and the books cost about \$6.00 or \$7.00 for each year. The entire time and services of each nurse during the three years of her training are at the disposal of the hospital, but each nurse will receive during the third year twenty-five dollars (\$25.00) which makes the course practically free.
